Diagram illustrating the layout of runways (Rwys) 05L and 05R, showing the HIRL (High Intensity Runway Lighting) and REIL (Runway End Identifier Lighting) systems. The runways are parallel, with 05L on the left and 05R on the right. The runways are 12,101 x 300 and 12,101 x 200 feet long. The diagram shows the 0.5% UP and 0.5% DOWN slopes. The BCN TWR (Base Control Tower) is located at 312 feet. The diagram also shows the ELEV 143 and TDZE 143 markers.

CHANGE : Update.
