

SIDs VOR DESCRIPTION**INITIAL CLIMB PROCEDURE RWY 05****Minimum climb gradient 7.6% (460 ft/NM) until leaving 4000FT.**

After take-off proceed on RWY heading (track 049°) until leaving 850 ft, turn right (IAS MAX 210 kt during turn) on TR 271° until joining RDL 226 PTC VOR (TR 226°) bound to GIPOR.

MCA: GIPOR 4000 ft

WARNINGS:

- A. Initial climb procedure partially outside controlled airspace.
- B. SID partially outside controlled airspace when below any minima.
- C. Relevant obstacles located East of the aerodrome.
- D. There are close-in obstacles penetrating OIS 2.5%.

REMARKS:

- 1. Turn leaving 850 ft shall be performed with IAS MAX 210 kt.
- 2. Turn leaving 850 ft shall be performed with bank angle 25° or rate of turn 3°/sec, whichever requires the lesser bank.
- 3. Turn before DER not allowed.

INITIAL CLIMB PROCEDURE RWY 23**Minimum climb gradient 5.0% (300 ft/NM) until leaving 4000FT.**

After take-off proceed on RWY heading (track 229°) until joining RDL 226 PTC VOR (TR 226°) bound to GIPOR.

MCA: GIPOR 4000 ft

WARNINGS:

- A. Initial climb procedure partially outside controlled airspace.
- B. SID partially outside controlled airspace when below any minima.
- C. Relevant obstacles located East of the aerodrome.
- D. There are close-in obstacles penetrating OIS 2.5% but they were not considered for the published procedure design gradient.

SIDs**AMANO 7E**

After GIPOR proceed on RDL 226 PTC VOR (TR 226°) until 47 NM PTC DME, then turn left until joining RDL 196 SOR VOR (TR 196°) bound to AMANO.

MCA/MCL: RDL 226/41 NM PTC VOR/DME: 8000 ft; RDL 226/44 NM PTC VOR/DME: FL 110

PEVIR 6E

After GIPOR proceed on RDL 226 PTC VOR (TR 226°) until 41 NM PTC DME, then turn right bound to DELER and joining RDL 125 PNZ VOR (TR 305°) bound to PEVIR.

MCA/MCL: RDL 226/41 NM PTC VOR/DME: 8000 ft; PEVIR: FL 100 (or TRL if higher)

POLIT 6E

After GIPOR turn left on TR 196° until joining RDL 135 SOR VOR (TR135°) bound to POLIT.

MCL: POLIT: FL 90 (or TRL if higher)

SOR 6E

After GIPOR turn right on TR 256° until joining RDL 135 SOR VOR (TR 315°) bound to SOR VOR.

MCA: SOR VOR: 6000 ft

VARAL 7E

After GIPOR proceed on RDL 226 PTC VOR (TR 226°) until 24 NM PTC DME, then turn left until joining RDL 154 SOR VOR (TR154°) bound to VARAL.

MCL: RDL 226/32 NM PTC VOR/DME: FL 110
