

AERODROME GROUND MOVEMENT CHART - ICAO

HAHN ATIS	136.355	HAHN GROUND	121.980
HAHN TOWER	119.655		
HAHN TOWER	120.905		
HAHN TOWER	360.075		

FRANKFURT-HAHN

Parking Positions

- Apron 3, 4: ACFT are permitted to taxi on Apron only at indispensable minimum engine speed, when taxiing into ACFT stands. ACFT are not allowed to increase engine power considerably beyond idle motion speed.
- 311-316, 321-325: Maximum ACFT type for parking positions is ICAO CAT C ACFT. Only idle thrust to be used after left or right turn into parking position. Advise HAHN GROUND on 121.980 if unable. If taxiing on apron is interrupted, HAHN GROUND shall be informed before continuing to taxi.
- 311, 314, 321, 324: ACFT on parking position has to be pushed back on TWY A. Permission has to be requested on HAHN GROUND 121.980.
- 332, 333, 334: Maximum ACFT type for parking positions is ICAO CAT C ACFT.
- 326, 341, 351, 411, 441: Maximum ACFT type for parking positions is ICAO CAT E ACFT.
- 331, 421, 431: Maximum ACFT type for parking positions is ICAO CAT F ACFT.

Supplementary Information

- 1 TWY A between TWY B2 and TWY E for aircraft up to category C (wingspan below 36 m) only
